REACH Compliance Statement

18 Feb 2019

“REACH is the European Community Regulation on chemicals and their safe use (**EC 1907/2006**). It deals with the **Registration, Evaluation, Authorisation and Restriction of Chemical substances**. The law entered into force on 1st June 2007.

The aim of REACH is to improve the protection of Human Health and the Environment through the better and earlier identification of the intrinsic properties of chemical substances. At the same time, REACH aims to enhance innovation and competitiveness of the EU chemicals industry. The benefits of the REACH system will come gradually, as more and more substances are phased into REACH.”

Aber Instruments Ltd meets all applicable REACH requirements and is committed to provide our customers with information about substances in its products as required.

Aber Instruments Ltd products are exclusively made from components and materials that suppliers have declared free of substances of very high concern (SVHCs) as defined in the REACH current SVHC Candidate List at the time of writing of this certificate.

Aber Instruments Ltd assures its customers that all our products and accessories are in full compliance of the EU REACH requirement.
